# Dasher Board Systems

## Productions

### Aluminum Dasher Boards

Our aluminium dasher board system produced under the Trade Make Global Ice Systems is an economic and long lasting alternative for both mobile and stationary Ice Hockey Rinks. Most important feature of these boards is that they are designed and produced for very fast and easy installation and dismantling.

### FEATURES

**Standard features**

**Frame structure:** Aluminium profile with 3 mm thickness

### REFERENCES

**Turkey / Sivas** 3000 seating capacity Multi-Purpose Sports Hall Mobile Olympic Ice Rink

**Austria / Klagenfurt** Mobile Olympic Ice Rink (produced for AST Solar & Ice Technick GmbH)

**Turkey / İstanbul- Silivrikapi** Ice Rink -Training Rink

**Turkey / Samsun** Olympic Ice Rink

### Galvanized Steel Dasher Boards

Our galvanized steel dasher board system produced under the Trade Make Global Ice Systems is a durable and economic solution for stationary Championship and Training Ice Hockey Rinks.

### FEATURES

**Standard features**

**Frame structure:** Galvanized steel profile with 2 mm thickness

### REFERENCES

### COMMON FEATURES

#### Standard features

**Cladding:** White coloured HDPE on ice side, yellow coloured HDPE kickplate and blue or red coloured HDPE handrail

**Safety Glass:** Acrylic Sheet in 12 veya 15 mm thickness

**Glass Holding Profiles:** Specially produced transparent Polycarbonate (PC) profile enabling bending upon player hits

**Player Benches, Penalty Boxes and Off-Ice Officials Boxes:** Produced according to IIHF standards.

#### Optional Features

**Backer panels:** White coloured HDPE with desired thickness, designed and produced for easy installation and dismantling

**Soft Handrail:** Produced from Soft Rubber to decrease player injuries

**Advertisement Production System:** Produced from PC sheet Elevated floorings Rubber floorings, and seating systems for player benches, Penalty Boxes and Off-Ice Officials Boxes Ice Dam

## Special Dasher Board Projects

GLOBAL produces different dasher board systems which are out of It's standards product range. Our company is an engineering based production company so we can produce special products according to customer's designs as an OEM dasher board producer.

In these dasher board systems our customers can ask for different sorts of, board dimensions, material choices, colours, shapes and designs.

## Storage Carts

### A-Frame Shielding Storage Cart

come in two sizes in order to accommodate various shielding sizes and storage room requirements.

Storage Cart construction includes a welded steel frame with a painted finish. A-Frame rack covered with white poly cladding in order to eliminate metal to glass contact. Two ratchet and strap assemblies included with each cart. Towing tongue welded on one end and one pull handle each end for secure steering.

### Board Storage Cart

Storage Cart construction includes a welded steel frame with a painted finish. Carts include 5" diameter

wheels – 2 rigid and 2 swivel to allow for ease of maneuvering. End rails minimize shifting of panels during transport. Cart deck is covered with plywood in order to eliminate metal to metal contact when loading. Dasher sections to be stored upright, side by side to ease loading and minimize damage. Each cart will hold 12 Straight dasher sections (7" dashers crosswise on cart). Unique cart design allows for loaded carts to be stacked two high to minimize storage space required.

## Ring divider

### 304 or 316 quality stainless steel Hot-dip galvanized Aluminum

Produced from  
40x60 & 50x100 mm single or double frame  
panels with/without seamless screening

- 4 mm to 12 mm white PE300 or HD PE500
- 4 mm to 12 mm red PE300 or HD PE500
- 4 mm to 12 mm blue PE300 or HD PE500
- 4 mm to 12 mm yellow PE300 or HD PE500
- 4 mm to 15 mm transparent polycarbonate plate
- 4 mm to 15 mm transparent acrylic glass plate

## Ice Rink Concrete & Painting Applications

It is crucial for Ice Hockey sports to have right markings in compliance with the IIHF rules. The surface should be white and the right markings should be applied. The painting can be applied to refrigerated slab (the concrete surface below the ice) or directly on ice by special ice painting application.

GLOBAL provides both services for ice rinks. In some rinks, customers ask for special logo applications as well. GLOBAL also provides logo applications for rinks.

### REFERENCES

# Other Production & Products

## Specially designed seat for referees

Specially designed protected seat for referees

### Ice Hockey goal

Ice Hockey goal produced according to IIHF standards

## Ice Decking systems

GLOBAL is providing Ice Decking (AKA ice cover) systems for multi-purpose Sport Halls.

## Rubber flooring system

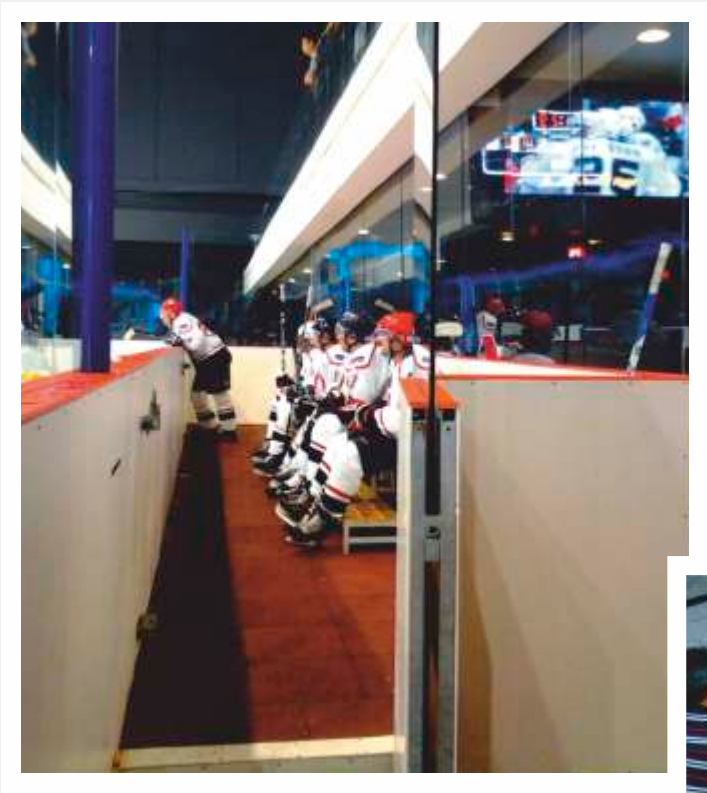

Ice rinks require rubber floorings to be applied on concrete surfaces around the rink and also on player benches and referee and penalty box floors. The rubber flooring protects both the floor surface and the blade of skate.

GLOBAL produces and supplies several different alternatives of rubber floors with many different colours and thicknesses between 6 and 20 mm. GLOBAL has applied a total of thousands of m<sup>2</sup> s of rubber floorings in the ice rink and sports projects that it was involved.

# Other Production & Products

## Wooden seating system

Wooden seating production which are used in player benches and penalty boxes

## Ice Hockey Players Lockers

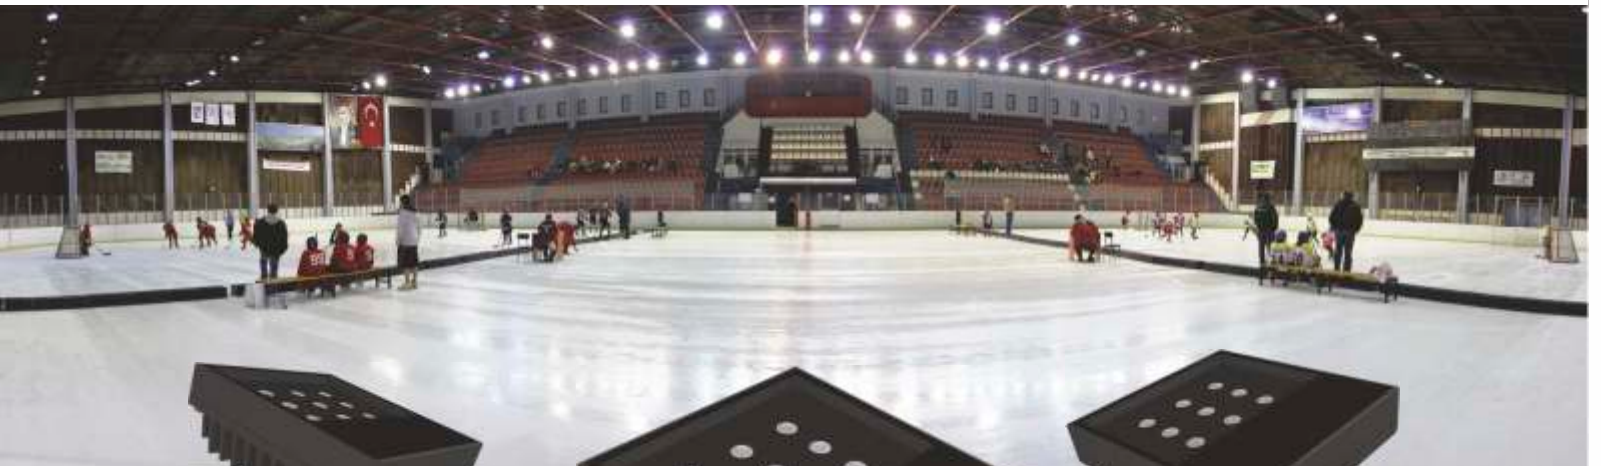

Ice hockey players need special lockers that they can use because they have many special equipment specific for the sports which require large spaces and proper hanging features. GLOBAL produces special lockers for ice hockey sports.

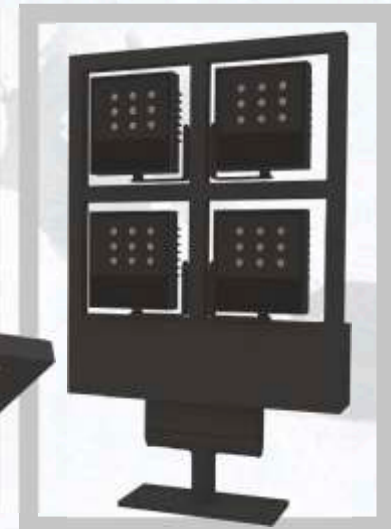

## Arena lighting system

- Modular design of this product makes it possible to produce wide range of items for different usage areas
- Dimensions of a module is set in a proportion which will not be too big for single use yet not too small for more led placements
- Rotation of a module is independent and adjustable in two axis for preferable angle of use for different usage areas
- %50 energy saving and efficiency longer life span
- Easy install and service

# Other Production & Products

## Ice sports accessories

As explained GLOBAL is a first-hand producer of dasher boards, safety nets, goals, rubber floorings and locker rooms. Apart from these products, GLOBAL provides all kinds of needs for ice rinks. Among these are;

*Skate sharpening machines*

*Skates*

*Ice Hockey Equipment*

*Ice Hockey Scoreboards*

*Ice Hockey Stick Holders*

*Seating systems*

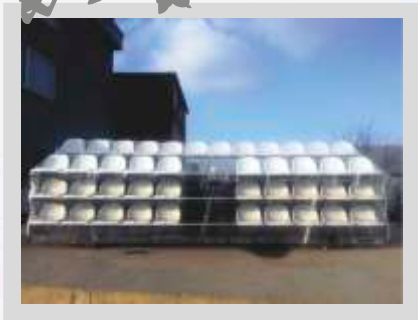

### REFERENCES

*Turkmenistan/Ashgabat Military Academy Olympic Ice Rink*; 2 sets of Ice Hockey Scoreboards, Skate Sharpening Machines, Skates, Ice Hockey Equipment and seat systems

*Turkey / Hakkari municipality Turn Key Ice Rink Project*; Ice skating and Ice Hockey skates for females and males in various sizes, skate sharpening machines, skate racks

*UAE / Al-Ain Olympic Ice Rink* Ice Hockey Scoreboard (Supplied to Ice Business GmbH)

*Kuwait / Kuwait City Al Othman Plaza Ice Rink* telescopic seating systems (Supplied to Ice Business GmbH)

Maximise usable floor space in multi-function sports venues.

#### Benefits:

- The useful surface area increases considerably when the stands are closed.
- Available in variety of positions and attachment types: against a wall, under a balcony, on the floor or self-standing.
- FIBA standards.

Wall type  
scoreboard and  
wireless hardware & software  
control system

- FIBA Level 1 scoreboards.
- 2 cubes 24 sec. Shot clock FIBA.
- 2 LED Strip
- 2 Horns 124 dB.
- Complete control console (Cube & Wall Type)
- Wireless and/or cabling control.
- Special software for **Basketball, Volleyball, Handball, Ice Hockey and Tennis** (Microsoft CE OS.)
- Touch pad screen (on control console).
- IP65
